Exception Status

Analyst Workload

Open exceptions assigned to each analyst

Settlement Success

- Settlement success is currently 66.7%.
- Improvement is required to achieve the operational target.

Operational Risk

- High Severity Exceptions represent only a small portion of total exceptions.
- Prioritize high severity and unresolved exceptions.

STP Performance

- STP rate is currently 82%.
- Increasing STP will reduce manual intervention.

Recurring Issues

- 85 trades experienced repeated operational exceptions,
- indicating opportunities for process improvement.

Business Recommendations

- Prioritize P1 exception resolution.
- Improve SSI validation.
- Increase STP adoption.
- Reduce recurring settlement failures.
- Balance analyst workload.
